## TEAM SPACE for Alternative Workplace Strategies

Navigate to: Space Planning & Management/Personnel & Occupancy/Manager/Space Console

ARCHIBUS has introduced ways to support organizations where support zones of space can be assigned to teams of people rather than individual seat occupants. Help manage occupancy for a target employee-to-seat ratio based on a team's room and employee assignments and lets you make changes to teams over time.

## FUN FACTS:

ARCHIBUS is used by over 8 million people, manages over 22 million properties in over 190 countries and in 30 languages.

## RPIC NOTES: Real Property Institute of Canada National Workshop

**Date: Nov 15-16, 2016**

Ottawa Conference and Event  
Centre, Ottawa

## End to End Service & Support

Horizant's mission, since 2000, has been to make our clients successful within their organizations by optimizing their work and portfolios, enabling efficiencies, cost savings and data control/management. **Dave Fedy** and **Wayne Liko**, formed Horizant to support our clients by offering the right technology tools, with the right resources and the expertise as required; from initial business analytics and requirements gathering, through to implementation and post project support and training to account support and technology road mapping. Our expertise spans many sectors: Healthcare, Higher Education, Corporate and Government.

ARCHIBUS as a powerful IWMS/ERP and enterprise information management system which has a complete lifecycle asset management capability featuring the way to track and manage processes and data, automate & streamline workflow, create efficiencies which results in significant cost saving and realtime data based intelligence for strategic real estate portfolio decision making.

**John Penner**, VP, Operations and the Horizant technical team have been working hard on new software installs, upgrades, ongoing IWMS enhancements; all in support of our client's objectives... your objectives; SAP HR, PeopleSoft integration, On Site Resourcing, Customized Lease Reporting, Archiving, Building Ops Console work, Fleet Management, Mobile, & Performance Metrics.

## IFMA Facility Fusion
