Alternative Workplace Strategies with Team Space, ARCHIBUS 23.1

ARCHIBUS has introduced dynamic ways to support organizations where support zones of space can be assigned to teams of people rather than individual seat occupants. Help manage occupancy for a target employee-to-seat ratio based on a team's room and employee assignments and lets you make changes to teams over time.

Navigate to: Space Planning & Management/Personnel & Occupancy/Manager/Space Console

ARCHIBUS:

The Global ERP ARCHIBUS Suite crosses time zones, currencies and standards of measure serving today's Agile business needs.

RPIC FORUM NOTES:

Real Property Institute of Canada **NEW FORUM!**

RPIC - Forum on the Workplace
April 26-27, 2017: Ottawa

Register today! <http://tinyurl.com/hd5wqaa>

CDN Peer Network:

Many cities, municipalities & regions, five provinces and many other organizations you'd recognize (LCBO, Blackberry, Air Canada, Suncor & more) are Horizant ARCHIBUS clients. Adding the over 25 Gov Dept like PSPC (PWGSC), CRA, NAVCan, DND, Justice, NRCAN, SSC, DFO & more means a strong peer network & you are in good company.

Solid Service & Support

Horizant, since 2000, has been advising our clients on how to optimize their work and portfolios, enabling efficiencies, cost savings and data control/management. Horizant helps clients navigate their technology choices; from initial business analytics and requirements gathering, through to solution options, implementation and post project support and training... to account support and charting their road maps for future and integration options. Our expertise spans many sectors: Healthcare, Higher Education, Corporate and Government.

Dave Fedy and **Wayne Liko**, formed Horizant to offer the right technology tools, with the right resources and the expertise as required; FieldFLEX, FSI and ARCHIBUS. ARCHIBUS is a powerful IWMS/ERP & enterprise information management system which has a complete lifecycle asset management capability featuring the way to track and manage processes and data, automate & streamline workflow, create efficiencies which results in significant cost saving and realtime data based intelligence for strategic real estate portfolio decision making.

John Penner, VP, Operations and the Horizant technical team have been working hard on new software installs, upgrades, ongoing IWMS enhancements; all in support of our client's objectives... your objectives; SAP HR, PeopleSoft integration, On Site Resourcing, Customized Lease Reporting, Archiving, Building Ops Console work, Fleet Management, Mobile, & Performance Metrics.

IFMA Facility Fusion
